

STARRT Your Success

As a school leader, you have a lot on your mind, and furniture probably doesn't top the list. But since it's more than 50% of a student's daily touchpoints, furniture really plays a key role in student and teacher success.

Understanding connections between your concerns and school environments inspire our furniture design and space planning work.

What Matters	What's Your Challenge?	How We Help You
S Student Growth	<p>Many students struggle to stay engaged. Causes include lack of sleep, hunger, boredom, home structure or social pressures. No matter the cause, academic performance suffers.</p> <p>School leaders want to surpass core standards and engage students to maximize individual potential.</p>	<p>Our research-based products help students stay alert, engaged and healthier by literally elevating the classroom via sit-to-stand options.</p>
T Teacher Development	<p>Teachers' success depends on student growth measurements, but classroom environments often stifle implementation of new teaching techniques taught in professional development.</p>	<p>Our products facilitate the quality and quantity of student-teacher connections and flex to support how teachers teach now and in the future.</p>
A Attract & Retain	<p>Teachers face performance pressures, unfavorable staff/student ratios, physical strain, lack of resources, and classroom constraints, which can negatively impact their morale.</p> <p>School leaders deal with absenteeism, dropout rates, and school-to-school migration – impacting student counts and budgets.</p>	<p>Good stuff happens in well-designed spaces:</p> <ul style="list-style-type: none"> • Great first impressions attract new students. • Better engagement improves student performance. • Superior results retain students. • Teacher retention rates increase as student growth improves.
R Community Relationship	<p>Administrators must build school reputations that motivate parental involvement, spur community growth, foster business partnerships, and generate school bond approvals.</p>	<p>Our furniture solutions make immediate visual impressions and empower academic results that build school pride.</p>
R Risk Management	<p>Schools face challenges providing safe physical, emotional and digital environments inside and outside of the school building.</p>	<p>Ergonomics and durability are top-of-mind for us because student health and safety are paramount.</p>
T Total Cost Management	<p>Leaders must balance short- and long-term facility needs with the immediate needs of students and teachers. Many furniture buying decisions are made to satisfy those immediate needs. However, the consequences of those quick decisions can last for decades.</p>	<p>Our high-quality furniture is an investment – not an expense – that provides problem-free flexibility over a long life cycle.</p>

New Seating. New Storage. New Possibilities.

Evoke® Seating

Fleetwood introduces new product portfolios that simplify furniture planning and enhance student learning.

- Comprehensive K-12 solutions
- Visual and dimensional coordination
