SEATING

Fleetwood seating collections are developed to comfortably support students while encouraging healthy movement that improves engagement and learning. Our chairs are made for a wide range of kids' bodies and all sorts of school settings, from the classroom to the cafeteria. They're also pretty cool – distinctive, colorful and oh-so-inviting.

2 height options
Matching table available

Pages 22-23

SOFT ROCK™

2 different styles
4 height options
Active or stationary

Pages 16-19

E! SEATING

Simple • Apt • Livable

Based on a simple platform – a single, integrated back and seat in a solid shell with no ribs – E! Seating is easy to use, easy to clean and easy to love. It can go almost everywhere, from the classroom to the cafeteria and back again. It's available in an eye-popping range of colors. And it provides comfortable, intuitive, ergonomic support that helps kids focus on learning.

One chair for every body.

The chair line that grows with your students.

Get all the chairs you need for your entire student population from a single source. E! Seating offers a range of size and functional options to meet virtually any K-12 application.

THE SHELL

Three shell sizes and a flexing back provide comfortable ergonomic support for all ages and body types. One-piece, no-rib construction eases cleaning and maintenance.

HOOK IN THE HANDLE

Back shell features a handle with built-in hook to keep backpacks off the floor and improve flow time as students travel between classes.

THE BACK

The flexing back provides passive ergonomic support to help keep students attentive. The sturdy design resists blushing at the bend point.

STACKED AND PACKED

Stacks up to 10 high to facilitate floor cleaning and ease transport. Packed with durability features – like a protective auto-stop device on cantilever models to protect your table investment.

THE BASE

Leg bases are 1" diameter powder-coated, heavy-gauge steel with a molded-in, metal-to-metal shell connection for exceptional strength with no pinch points. Choose from caster and pivoting glide options.

E! Seating

Styles & Sizes

STACKER

Stack up to 10 high to maximize storage density.
Seat Heights: 10", 12", 14", 16", 18"
Mobility: Glides

REVERSE CANTILEVER

Stack up to 6 high; place atop tables for easy floor cleaning.
Seat Heights: 14", 16", 18"
Mobility: Glides

CASTER

Supports agile classrooms and stacks for convenience.
Seat Height: 18"
Mobility: Casters

TASK

Mobility and height adjustability for teachers and older students.
Seat Height Range: 14"-20"
Mobility: Casters

TASK STOOL

Sit-and-stand flexibility in a mobile, height-adjustable chair.
Seat Height Range: 22"-32"
Mobility: Casters

STOOL

Ideal for alternating sit and stand postures.
Seat Heights: 26", 30"
Mobility: Glides

Rock

Stimulating • Comfy • Sturdy

Rock active stools elevate learning by promoting body movement and student engagement. The unique seat design encourages the kind of motion that turns tired, distracted students into active learners. Sturdy backless design, age-appropriate height options and gentle seat contours improve blood circulation, posture, attentiveness and eye-to-eye interaction.

Rock

Styles & Sizes

TALL

Seat Height: 26"
Seat Width: 13.5" rounded square
Mobility: Oversized glides

MEDIUM

Seat Height: 22"
Seat Width: 13.5" rounded square
Mobility: Oversized glides

SHORT

Seat Height: 18"
Seat Width: 13.5" rounded square
Mobility: Oversized glides

A healthy range of motions.

Because the best posture is the next posture.

SIT

Rock's contoured foam seat and integrated footrest enhance comfort and promote proper posture while students are sitting.

STAND

Stools allow students to alternate between sitting and standing postures without disrupting the classroom.

PERCH

The fully welded frame provides a safe, stable base for perching near the edge of the seat, which takes stress off the back.

PRODUCTIVE FIDGETING

Our patent-pending seat mechanism supports front-to-back and lateral pivoting action, which can help improve focus and attention.

ROTATE

The non-handed, backless seat enables students to easily swivel around as class focal points change.

EYE-TO-EYE

Elevating students brings them eye-to-eye with teachers for improved interactions.

"We've seen in the classroom that a stool paired with a taller worksurface raises the student's eyeline, so there's better eye contact with the teacher. The ergonomics are better for everyone."

— Fleetwood Design VP
 Alan Rheault

Save space, improve flow.

Chairs that transform the classroom.

COMPARED TO SEATS WITH BACKS, ROCK ALLOWS:

MORE STANDING CIRCULATION SPACE

Gain an additional 21" between rows when students stand and stools are tucked under tables. Teachers can freely move between project teams to provide personal assistance.

MORE SEATED CIRCULATION SPACE

Gain 6" in aisleway between rows so rooms feel less congested.

MORE COMPRESSED CLASSROOM FOOTPRINTS

Rock's smaller scale allows tables to shrink, which opens up floorplans.

Soft Rock

Cushy • Lively • Cheerful

Like the Rock stool, this fully upholstered seating solution is designed to encourage students to move in ways that naturally focus attention and engagement. It can be equipped with a special base that allows an even wider range of motion. Soft Rock is available in multiple heights to suit different body sizes and create a varied visual landscape.

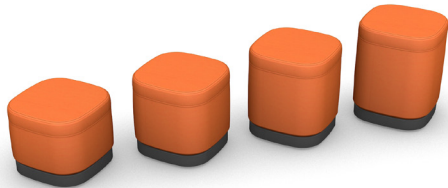

Soft Rock - Stool

Styles & Sizes

STOOL - STATIONARY

- Seat Width: 14" x 14"
Seat Heights: 12", 14", 16", 18"
Benefits:
- Fixed base
 - Stability for wriggling, squirming students
 - Slip- and slide-resistant

STOOL - ACTIVE

- Seat Width: 14" x 14"
Seat Heights: 12", 14", 16", 18"
Benefits:
- Flexing base
 - Chair moves in harmony with students
 - Non-slip bottom

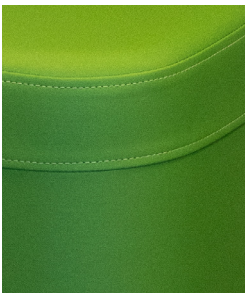

A playful place to sit.

Create a fun, dynamic learning environment.

FIDGET FRIENDLY
Choose a fixed base or patent-pending active-base seat mechanism that allows even more movement and productive fidgeting.

SMART DESIGN
Detail stitching, stain-resistant fabric and dual-density foam optimize aesthetics, cleanability, comfort and stability.

KID COMFORTABLE
Dense foam in the stool body provides excellent support while softer foam in the top section enhances the cush factor.

Height	Grade
12"	K-1
14"	1-2
16"	2-5
18"	5-12

MULTIPLE HEIGHTS
Pick the right height for your growing students and their activities.

Soft Rock - Floor Cushion

Styles & Sizes

FLOOR CUSHION

Seat Width: 14" x 14"

Seat Height: 3"

Benefits:

- 3"-thick comfort
- Easy mobility
- Easy comfort
- Great durability

STORAGE SOLUTIONS

Our Designer 2.0 Collection offers a range of specialized solutions for keeping floor cushions neat and organized when not in use.

Bench

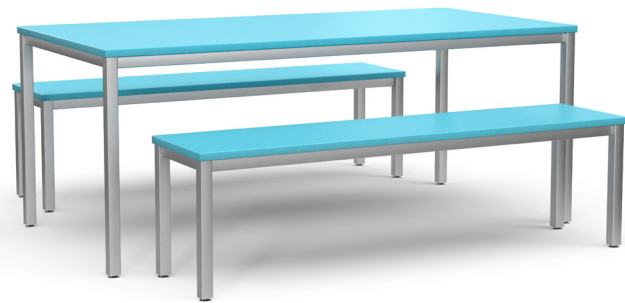

Tough • Practical • Multipurpose

Our sturdy, welded-frame bench complements our picnic table and provides alternate seating solutions in common areas, hallways, administrative waiting areas and other social spaces.

BENCH

Heights: 14", 18"
