

Illusions 2.0

Architectural • Limitless • Futureproof

Get the look and feel of built-in storage solutions without the time and expense. Illusions 2.0 supports perimeter and space-division planning without locking you in – it's easy to move and reconfigure components as your needs change. Multiple sizes and configurations combined with modular flexibility give you near-endless options for personalizing your space.

BUILT-IN LOOK WITHOUT THE EXPENSE

Most built-ins limit you to shelves, doors and maybe a few drawers. Illusions 2.0 allows you to do so much more, accommodating layered markerboards and digital solutions.

EASY "DO-OVERS"

If functional needs change, Illusions 2.0 morphs easily. Reconfigure existing components or add or subtract units to support new teaching methods.

PERIMETER AND OPEN

Illusions 2.0 is finished on the back, equipped with counterbalance weights and attached to adjoining units – making it a safety-conscious solution that's equally at home against a wall or separating classroom space.

FAST, NO-TRADES INSTALLATION

Your dealer rolls Illusions 2.0 off the truck and into finished classrooms, so everything is "teacher ready" in hours versus weeks. It's the perfect solution for both new construction and renovations.
